-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-19 are replete errors too numerous to list in their entirety. While examples are given below, the examiner suggests that all claim be given attention to correct for instance of vague and indefinite recitations.

Use of the term “preferably” in claims 1, 4, 5 render the claims indefinite and vague.

Claim 1, line 7 recites “...and which have an upstream side plane...”. It is unclear what has the “upstream side plane”. Does the inner pipe or the flow resistors have the upstream side plane? As written the claim is unclear.

Claims 3, 6 recite the limitation "the approximately deepest point". There is insufficient antecedent basis for this limitation in the claim.

In claim 7, the phrase “...or even below...” is unclear.

Claims 13 recite the limitation "the upstream side leg". There is insufficient antecedent basis for this limitation in the claim.

Claims 13 recite the limitation "the triangle side". There is insufficient antecedent basis for this limitation in the claim.

Claims 13 recite the limitation "the legs". There is insufficient antecedent basis for this limitation in the claim.

Claims 15 & 19 the term "closely" is relative thus rendering the claim indefinite.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-19, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Muschelknautz et al. USP 3,759,578. Muschelknautz discloses a similar device comprising a(n):

- Conveyor line (2)
- Inner pipe (4) having openings
- Flow resistors (12b) having upstream and downstream side planesm the upstream side plane forming an angles < 90 degrees with the axis of the inner pipe

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
